This crazy package is applicable to both couples going to get married and honeymooners. What is interesting is that it enables the loving couple to get a free diving course in our main swimming pool and then to experience a really original wedding and honeymoon dive ceremony under the waters of Mauritius behind the reefs. The bride is complimentary again!

The civil wedding will be done by a civil officer organized under the supervision of Maurisun, hereafter the couple will go out in the sea to exchange the romantic kiss and the groom will pass on the ring to his bride. This will be done behind the reef at 9 meters deep. A cross with attached pieces of bread will be placed near the reef to attract more fish. A monitor will take pictures with an underwater camera provided by the hotel. It is up to the clients to get their photos developed at their cost (service provided by the Maurisun).

The ceremony lasts 2 hours. In case the couple has got family and friends who want to assist at the ceremony, a glass bottom boat will be used so everyone can watch the ceremony from the boat. Maurisun's diving operators will need at least 3 days notice to organize the ceremony.

Please issue a special voucher for your clients who will remit it to reception on their arrival.
